Dear Mr. Pino:

Congratulations on recently being included in the *South Florida Business Journal's* list of top 100 power leaders. You are to be commended for being recognized as a leader in your community. Because entrepreneurship is the foundation of Florida's success, I am focused on making the Sunshine State the best place for businesses to grow so that entrepreneurs can succeed and continue adding private-sector jobs to Florida's economy.

Our pro-growth agenda is working to increase opportunities for Florida families. Florida's unemployment rate dropped to 6.2 percent in December. This is the lowest unemployment rate in over five-and-a-half years and the ninth straight month in a row below the national average, putting our total job creation since December 2010 at 462,100. Once again, Florida is outpacing the nation's unemployment rate and will continue to work tirelessly to make sure Florida families can pursue their version of the American dream by getting a great job and having access to a quality education.

Thanks to you, it's working in Florida. Please let your friends and family know about Florida's great turnaround story.

Sincerely,
